To Families Searching for a Care Manager:

Advocare was a tremendously valuable service to my family.

When my grandmother needed in home care my sister and I were very worried. We both lived far away and didn't know anyone in Florida who we could trust. Through a professional contact, my sister discovered Advocare and they were extremely helpful to us during this difficult time.

Amy Seigel helped us navigate all the various options for my grandmother and skillfully directed us. The nurse assigned to checking in on my grandmother and taking her to her doctor's visits was so caring and trustworthy. Suddenly, we felt like we had family members in Florida to advise us and to make sure my grandmother was properly taken care of.

My sister and I will always remember the excellent and most helpful service Advocare provided us.
